

You can also transform lives with education!

Each person is like a dot. Separately, they are valuable. But when those dots come together at the right place and time, **they form circles that connect and strengthen each other.**

We live in circles: circles of friends, family, and study. They define us, sustain us, and remind us that **we are part of something bigger.**

With the **Alda Membership Program**, we invite you to be part of a new circle: **one that ensures that education becomes a reality in every community.**

Because when circles come together, transformation begins to happen.

At **Fundación Alda**, we have been working since 2003 with an educational model that **involves and engages all social actors; a school open to the community.**

With your monthly contribution, you can be part of this circle and ensure that our **Alda Educa** and **Joven Adelante** programs continue to grow.
